BROKERS COMMENTS

The advantages of a composite hull are not only the favourable maintenance programme but also the significant weight saving which directly influences speed and handling.

Bliss is at the leading edge of large sailing yacht construction technology. She is a very fast yacht by virtue of her power/weight ratio. She also encompasses a beautiful interior styled by Design Unlimited incorporating all the comforts of superyacht living, including excellent sound proofing and many long range cruising features. **Bliss** will be stationed largely in the Pacific where distances demand speed, reliability and independence.

Bliss has delivered the promised sailing performance to the delight of all who have stepped aboard. Yachting Developments, have built a wonderful yacht and Design Unlimited have expressed the owners' wishes for a very contemporary feel and combined an original interpretation with practicality and flair.
